

HEALTHY BIRTH,
GROWTH & DEVELOPMENT
knowledge integration

What motivates you? Are you a hacker or just a hack?

Hacking Global Health in Numb3rs

Hackathons were once the exclusive domain of engineers, designers, product managers and other “techies”. Not anymore! The **Bill & Melinda Gates Foundation** Healthy birth, growth and development knowledge integration (**HBGDKi**) initiative is bringing this collaborative format of huddle and hustle to problem solving with the potential of global impact by the end of the ‘hack’ into the mainstream Pharmacometrics culture.

This FREE fun-filled workshop hackathon is co-sponsored by the [Center for Research and Interdisciplinarity](#), [Open Data Science Conference](#) and [Sage Bionetworks](#).

We are leveraging a large knowledgebase, data science and technology to fight disease, empower the most vulnerable, and help children thrive—and we need your help.

At the PAGE2016 hackathon, you will:

- **Learn** how we are applying pharmacometric approaches to solve difficult global health problems.
- **Engage directly** with the impressive data sets and challenging questions we’re working on.
- **Interact and collaborate** with data science experts from around the world applying state of the art data analytics methods to solve the world’s most complex problems.

Disrupt & Have Fun: Only 25 spots available

Data science is changing how many companies do business. Pharma and Biotech will soon catchup. Hear and learn from top speakers how the world’s most innovative individuals and companies are harnessing the power of data science to transform their industries and services. Participate in networking and socials on Sunday and Monday night. You won’t want to miss this.

Hackathon details

- Timing:
 - Arrive by Sunday, June 5, 2016 for a networking reception from 6-9PM with local data science community and other PAGE2016 attendees (This event will be open to the data science community, so please plan to join us even if you cannot participate in the hackathon on Monday-Tuesday. You do not need to register for this event.)
 - Meeting on Monday, June 6, 2016 from 10AM through dinner
 - Meeting on Tuesday, June 7, 2016 from 10AM-5PM
- Location:
 - Lisbon Marriott Hotel, Avenida dos Combatentes, 45, 1600-042 Lisbon, Portugal

Keep an eye on this [Dataverse site for datasets and problem statements](#).

Space is limited for this exciting event, and registration will be permitted on a first-come, first-serve basis. If you would like to join, please register as soon as possible on this [Registration Site](#). The site will close once we reach capacity.

With any questions, cancellations to your registration, or to request reimbursement for the 2 additional hotel nights if you are a student, please email Lyndsey.Wilson@gatesfoundation.org.
